tests/test_classifier.py

```python
from src.classifier import ToxicityClassifier

def test_rule_based_empty():
    c = ToxicityClassifier()
    res = c.rule_based_score("")

    assert res["score"] == 0.0

def test_rule_based_hits():
    c = ToxicityClassifier()
    res = c.rule_based_score("You are an idiot and a moron")

    assert res["score"] > 0
    assert "abusive" in res["labels"]
```
